

Application for the CMEE MS Graduate Scholarship

The Center for Microelectronics in Extreme Environments (<https://CMEE.UNT.edu>) and College of Engineering are offering competitive scholarships to GradTrack and new graduate students in the expected new Master of Science in Semiconductor Manufacturing Engineering offered by the College of Engineering. This program is open to undergraduate majors in CSE, EE, ME, MTSE, Chemistry, and Physics. **The scholarship provides a \$2500/monthly stipend and tuition during the two long semesters in year 5 for Grad Track students and year 1 for new graduate students who plan to pursue semiconductors/electronics careers.** *If there is a delay in the new MS being official in the fall of 2025, students will follow the MS in Semiconductor Manufacturing Engineering program curriculum and transfer in later.*

- Please see your department advisor for details on your department-specific UG electives that are acceptable for the GradTrack MS in Semiconductor Manufacturing Engineering and other curriculum details.

Eligibility and requirements:

1. US citizenship is required.
2. Must be a *major* in one of the following UNT BS programs: CSE; EE; MEE; MTSE; Chemistry or Physics.
3. Must be accepted to the Grad Track MSST option in one of the approved BS programs during his/her junior year (completed at least 75 credit hours or has approval from the department graduate advisor) or must be newly accepted into the MS in Semiconductor Manufacturing Engineering.
4. Ideally a GPA of 3.5 or higher. Students with GPAs of 3.0 or above are eligible to apply.
5. Must participate in internship opportunities when available.
6. Must participate in professional development activities organized by CMEE.

The Scholarship Selection Committee will use a holistic approach and may consider exceptions to the academic criterion.

How to apply:

1. Personal statement (no more than 500 words) outlining your interest in the semiconductor/electronics sector.
2. A copy of your unofficial UNT transcript.
3. CV with information on your laboratory, internship, and/or research experiences.
4. Submit your signed application form, personal statement, copy of unofficial transcript, and CV **as a single PDF** file attachment by email to CMEEScholarships@unt.edu
